What is the Diversity in Education Program?

An Education Support /Teacher Aide course for learners from diverse ethnic backgrounds

Diversity in Education is a dual-qualification, practical training program that will equip you with the core foundation skills needed for success in training and employment, and the knowledge and skills required to work as a teacher aide or in other education support roles.

The training will cover topics relevant to the support of educators in primary schools. You will learn to support young students' individual literacy and numeracy development, contribute effectively to the management and organisation of a classroom, work with disabilities and cultural diversity, identify and supporting children at risk, perform required administrative duties and more.

The program is specifically designed for learners from culturally and linguistically diverse backgrounds who wish to provide cross-cultural learning support in diverse classrooms.

This program is a partnership between the Acacia Ridge & Districts Community Centre and Strategix Training Group. (RTO 31418)
